Friday (10/27/78 - Rec)

Harold -

I'm in the hospital for a few days and your letter was brought to me — Nothing to be alarmed about and I'll be out by the time you get this so don't be concerned about it at all + this is the only paper I could come up with.

Sounds like an excellent decision and buy on the spot - Glad you got it and it sounds like it will serve your purpose very well.

Unless Jerry Policoff has gotten a copy of the transcript from some other source I don't believe you have it. It is 180 some pages long and is a transcript of the tapes made in New York City in the office of Melvin Wulf in the presence of James Wolf and Jack Moriarty of the H.S.C.A. and myself. Would you rather have the transcript or the tapes? I can make you copies of the tapes but if you want the 180 pages - I'll have to mail them to you for you to copy and then you can mail my copies back. Let me know.

Under a different cover I have mailed you a bunch of stuff which you may already have copies of - or at least some copies of some of it. Please make copies of it and return my copies to me.

Breakdown

Wolfe's letter dated 9/8/70 included

1) Stokes Statement

a) Bishop Public Statement

b) My Allegations

c) Map

F.B.I - Trip-off

Pete Beaty on Wednesday before Aug. 7th met with me and told me that the F.B.I. office in Memphis had been in touch with H.S.C. about my cover being blown and that through reputable sources in Memphis the F.B.I. had learned of threats against my life by Jerry Ray and his friends" "Retaliatory Efforts" ~~the~~ "against me and my family" —

Pete Beaty had told me this —

Beaty also told me that Susan Wadsworth who at one point was living with me was now thought to be in Cahoots with Ray and that she was probably working

Mark Lane "hanging from light fixtures, on the kitchen sink, etc and other things with the stinking S.C.B."

Baty also told me that the FBI would be calling on me later that evening.

At 6:00 or so that evening — the F.B.I. arrived. An agent named Whittle (Penn) and another agent. They told me that the HSCA in D.C told them about Jerry Kaye's treat and later I asked them about the Memphis F.B.I. office, they knew nothing about it. They asked me if I had known someone named Clyde something who was in the same boat according to HSCA — When I said I never heard of Clyde ——— they realized they shouldn't have mentioned it.

(Clyde [illegible] testified that one of the days had ticked [illegible]

Conversations no written records
HSCA Memphis F.B.I.
FBI HSCA
(FBI) Was to subpoena me from - not necessarily that info. (Uh huh, I doubt it)

Your letter was read to Baity and Wayman while we were in my car in D.C. the night or night after Jerry and I visited you. Very little was said, but both Wayman and Baity think that everyone, including you, is (are) not only Semite but paranoia, etc. They are of course convinced also that Jones did it.

Because of this - covering a lot of subjects in a little amount of time. A day or two later a copy was mailed by me to Fibi P.O. Box. but of course I did not see the reaction.

It was the only executive session.

They Baity & Wayman think the list was things to testify to - to get stories and details straight.

According to Baity & Wayman in our 1st meeting back in Feb 1978 - They - by doing "their homework" figured out report that the FBI had supplied them that I was the one writing the report.

2 Weeks previous to this meeting the F.B.I. warned me that the Comm. knew who I was

Hope this is legible —

Hope this answers most of questions in letter dated 10/21/78 10/23/7

Hope the form is okay.

Let me know if you want tape & or Transcript of N.Y.C. meeting.

Please mail copies back to me once you have made yours and feel free to pass anything on to Jerry Ray and or Jerry Policoff

Thanks

Mark Allen

Fingers are sore + ! !!!!
